

Name: _____

Review It!

- Light can interact with objects in three separate ways. Define each term, and give an example.

	OPAQUE	TRANSLUCENT	TRANSPARENT
DEFINITION			
EXAMPLE			

Dig Into It!

- Research an animal that lives in the abyssal zone. What are some similarities and differences between you and your abyssal zone creature? How would you have to change to live in the abyssal zone?

ORTHODOX EXPLORERS CLUB - FEAR NOT

Name: _____

Apply It!

- Take a few different objects and a flashlight into a dark room. Shine the flashlight at them, and draw what you see below! Are the objects opaque, translucent, or transparent?

Object 1	Object 2
Object 3	Object 4

Reflect On It!

- Reflect on a time when you were scared. Using what you've learned, how would you make yourself feel less scared in the future?
